<u>Call for proposals</u>

# Launching the deployment of NG112

| Title | Call for proposals - Launching the deployment of NG112 | | |
|---|---|---|---|
| Version | 1.0 | | |
| Revision date | 09-04-2019 | | |
| Status of the document | Draft | For comments | Approved |

# 1  Who can apply?

Candidates to participate in this project will need to create consortia with other organisations. The goal is to be able to showcase a full-IP based communication between a user equipment and the most appropriate PSAP using the international standards. It is mandatory that at least one PSAP participates is part of the consortium.

# 2  How to apply?

The consortia candidates have to send an email to cl@eena.org by the 15th June 2019.

# 3  What information is needed?

The following information is requested:

a) Name and brief description of the organisations building the consortium

b) Use cases that will be tested

c) Brief description of the role of each organisation from a technological point of view

d) Demonstrate that the solution is based on standardised technology (EENA LTD)
