

- Founded in 1905.
- 800 volunteers, 18 employees.
- 21. August 2009 the King and the government recognized Red Cross as an auxiliary to Norwegian authorities also in peacetime.

The city of Trondheim:

- Population: 213 000 inhabitants
- Each year also 30 000 students.
- Trondheim is a center for higher education. Houses Norway's largest university.
- Houses The Nidaros Cathedral: Norway's national shrine and an important symbol for the city.

Our tools

- CIM (Crisis Information Management, F24).
- Volunteers and staff (courses and exercises).
- Emergency agreement with the Municipality.
- Emergency plan with action cards
- Volunteer management systems (DiBA – volunteer data base, Resource system, «My Red Cross»).
- Project ENGAGE – learning and evolving, network and focus.

Preparedness Guards

- The Red Cross Emergency Response Service is a scheme which allows volunteers in the Red Cross to be listed as **Preparedness Guards** on an alert list for extraordinary incidents.
- The Preparedness Guards' role in Trondheim Red Cross adds an extra resource in addition to the public emergency apparatus in Norway. It helps to strengthen preparedness in the local communities all over the country.
- Through the locally based Preparedness Guards, the inhabitants themselves can assist in critical situations

Bakklandet

Øya

Det blå området er spesielt utsatt for flom hvis et skred forekommer.

I de røde områdene er det spesiell fare for kvikkleireskred.
