Merci de noter que ce document n'est un véritable annuaire d'information. Ce document est une réponse humoristique à la multiplication des numéros d'urgence en France.

Please note that this document does not intend to be a real directory for information purposes. This document aims at showing the significant effect the quantity of emergency numbers in France can have in the awareness levels of the local population and visitors. This document is provided as a humorous response to the never ending multiplication of emergency numbers in France. Under no circumstances may reliance be placed upon this document by any parties in compliance or otherwise with any applicable laws. Neither may reliance be placed upon this document in relation to the suitability or functionality of any technical specifications, or any other matters discussed in it.
